

IBT and Astron Wireless Merger

Ancilla LLC's Press Release:

August 4th, 2007 For Immediate Release: August 1st, 2007 Ancilla, LLC – Business Intermediaries and Consultants (www.ancillallc.com) of Richmond, Ohio has closed its latest Merger and Acquisition Deal in Columbia, Maryland. Astron Wireless Technologies (www.astronwireless.com) of Virginia has acquired Integrated Barcode Technology, Inc. (www.integrated-barcode.com) of Maryland. Astron Wireless Technologies, Inc is dedicated to providing innovative standard and custom antenna solutions from design through manufacturing for commercial and military applications. Integrated Barcode Technology provides data collection turnkey solutions in the barcode and RFID industries including the design, sale of equipment and custom software solutions. Ancilla, LLC represented Integrated Barcode Technology throughout their search for a partner who will allow the current management structure to grow the business by teaming with a strategic buyer. All parties were excited to move forward with the new venture. Please visit the press release for additional information on the acquisition at this link -----Ancilla, LLC provides services that include preparation, valuation and sale of businesses for business owners. They also provide business consulting, business search services and buyer side search solutions. Ancilla, LLC's President Pete Bunner (740-765-5442 or pbunner@ancillallc.com) who was involved with this sale on a daily level said “this has been one of those deals that makes me happy knowing that I could be part of this acquisition and have a chance to work with two talented companies.” Ancilla, LLC is a member of many industry associations and can be visited at (www.ancillallc.com).
